Dear Jeff,

I want to commend you and your staff for your unyielding efforts in representing Delta Industries, Inc. over the years. The difference in you and most attorneys is that most attorneys consider their job done when a judgment is rendered in their favor. For you and your staff, a favorable judgment is just the beginning of the race. You guys don't quit until you cross the finish line... **You collect the debt!**

Your willingness to follow through with a debtor's judgment examination and subsequent personal involvement with a "writ of execution" to collect the debt is a true commitment to our best interest. Your legal intellect and experience, coupled with your business-wise common sense are a lethal combination that has served our company well. Thank you for being a good steward of our time and money, and for helping us achieve our financial goals.

With best wishes and kindest regards, I remain

Sincerely,

J. Thomas Evans, Jr.
